

1st CALL FOR PAPERS

3rd INTERNATIONAL CONFERENCE ON THE INDUSTRIALISATION OF DSC (DSC-IC 2009)

It is my great pleasure to invite you to attend the 3rd International Conference on the Industrialisation of DSC, which is being held from April 22 to April 24, 2009 in the beautiful city of Nara, Japan.

The 3rd DSC Industrialisation Conference (DSC-IC 2009) will address the newest trends, breakthroughs, discoveries and applications in DSC technologies. The conference will open up channels to innovative ideas for new collaborative scientific projects and commercial activities.

This conference will build on the success of our previous conferences DSC-IC 2007 in St Gallen and DSC IC 2006 in Canberra and will once again bring together scientists, engineers, industrialists, investors and others active and/or interested in DSC technologies. Very much aligned with the significant increase in DSC development efforts worldwide, the key objective of this 3rd DSC-IC is to strengthen the DSC community at large and to assist the numerous DSC commercialization programs in particular.

Joint Chairpersons, Professor Tsutomu (Tom) Miyasaka and Professor Shozo Yanagida will be joined by top academic, institutional, government and industry experts in DSC technology from around the world delivering presentations. We expect a participation of over 300 delegates in the field of DSC.

The conference will be of significant advantage to investors and analysts seeking real data on DSC. Manufacturers considering including DSC in their product ranges will hear case studies of companies already in the field. Product designers and architects will gain insight into the real advantages of DSC compared to classical photovoltaics. Researchers will gain an understanding of the key industrial criteria to enable better direction of R&D. Students will benefit from a holistic overview of all aspects of DSC.

The technical program includes Plenary, Keynote, and Short Lectures, as well as Poster presentations. Moreover, attractive social/cultural programs will be organized for delegates and partners during the conference.

**3rd INTERNATIONAL CONFERENCE
on the INDUSTRIALISATION of DSC
DSC-IC 2009**

Nara, Japan, 22-24 April 2009

Abstract submission for oral and poster presentations are now open. Please note that abstract submission (an abstract of 100 words is requested) is due by 19 December 2008 and can be submitted online at <http://www.dyesol.com/conference/page/Call+for+Papers> with acknowledgment of acceptance of the abstract for oral presentation being given by 31 January 2009. Please refer to the website: <http://www.dyesol.com/conference09/page/Instructions+for+Authors> for detailed information as to how to register or contact us should you require further information.

There will be limited exhibition space available for any organisation involved in the field. Further details will be provided on the website soon.

Dyesol is proud once again to be lead sponsor of the 3rd DSC Industrialisation Conference, and together with our new co-sponsor [G24 Innovations](#), are looking forward to seeing you at DSC-IC 2009.

Prof Tsutomu (Tom) Miyasaka
Conference Chairman
